# Fulfillment & E-Commerce

## Warehousing, Order Processing and Returns – All from One Partner

ULD United Logistics & Distribution combines modern warehouse logistics with system-driven fulfillment for digital commerce. From inbound goods and inventory management to order processing, shipping and returns, we coordinate the entire logistics process in one integrated setup.

Through our JTL-based system environment, inventory, orders and shipment status remain visible in real time. Quick system integration connects your shops and sales channels seamlessly while reducing manual work and increasing operational transparency.

# Our Fulfillment Services

Inbound & Inventory  
Management

Scan-based goods receipt and transparent inventory management.

Picking & Shipping

Pick & pack for B2B and B2C orders, including labeling and shipping.

Value Added Services

Repacking, labeling, bundling and display preparation.

Returns Management

Inspection, restocking and structured return processing.

# Your Benefits with ULD

- ✓ Real-time visibility of inventory and orders
- ✓ Seamless integration through JTL and shop interfaces
- ✓ Scalable processes for growing volumes
- ✓ Support for B2B, B2C and retail supply chains
- ✓ Strategic warehouse location near the Port of Hamburg
- ✓ Dedicated contacts and transparent operational processes

# Fulfillment That Scales With Your Business

Whether you operate in direct-to-consumer sales, e-commerce or retail supply, we design a fulfillment setup that fits your products, sales channels and shipping structure.

Our goal is simple: stable processes, transparent data and reliable logistics in everyday operations.

# ULD in the Port of Hamburg
